TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL (Postgres), Java
Frameworks: Next.js, React, Prisma, Node.js, Express, TailwindCSS, Shadcn
Cloud Services: AWS, Google Cloud Platform, DigitalOcean, Cloudflare
Developer Tools: Git, Docker, Puppeteer, VS Code, Postman

EXPERIENCE

Founding Engineer February 2025 – Present

Alace AI

- Architecting and scaling an AI-driven platform that automates and optimizes paid ad campaigns to maximize ROI.
- Leading the technical development of core AI agent logic and high-performance system architecture.

Full Stack Developer August 2023 – January 2025

Freelance

- Developed a web application for booking city passes with QR code verification.
- Built Ailyak, a platform unifying complex itinerary planning and client management.
- Developed internal AI tools for MNCs including chatbots, AI Agents, and Voice AI Agents.

Web Developer June 2023 – August 2023

Crown Cast

- Collaborated with cross-functional teams to deliver rapid MVP iterations.
- Gained deep expertise in the React ecosystem.

PROJECTS

Sol Ball | *Next.js, TypeScript, Solana, Durable Objects, WebSockets*

- Engineered a real-time multiplayer soccer game using WebSockets and Durable Objects to ensure low-latency state synchronization across clients.
- Integrated Solana blockchain functionality to enable secure crypto wagering, allowing users to stake assets on match outcomes.
- Designed a responsive, high-performance interface with Next.js and TypeScript to handle complex game logic and animations.

JSXmith | *Next.js, AI APIs, AI Agent*

- Developed an AI-powered copilot that parses natural language prompts to generate production-ready React and Tailwind CSS code.

Alace AI | *Next.js, AI APIs, AI Agent*

- Built a scalable SaaS platform that utilizes autonomous AI agents to analyze and optimize paid advertising campaigns.
- Implemented algorithms to automate bid adjustments and audience targeting, aiming to maximize Return on Ad Spend (ROAS).
- Created a comprehensive analytics dashboard allowing users to visualize real-time campaign performance and AI decision logs.

EDUCATION

Indian Institute of Technology - Madras

Chennai, India

BS in Data Science

OPEN SOURCE

100x Devs | *Turborepo, Next.js, Prisma, TailwindCSS*

- Top Contributor with 40+ Commits and 10+ Merged Pull Requests.

Chatbot UI | *Next.js, Supabase, TailwindCSS, Shadcn*

- Contributed 30+ Commits and 10+ Merged Pull Requests.
